

Welcome Summer!

It's summer time, and we hope you all have a fantastic time. Please remember to put on

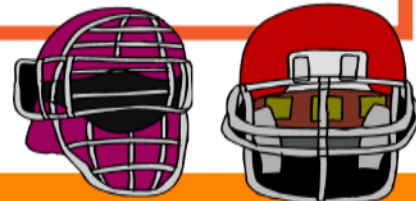

plenty of sunscreen, and stay safe near the water. Never swim or camp alone, wear life-vests on boats and swim in safe waters on beach trips. We wish everyone a safe and happy summer break!

Summer Hours

Monday and Wednesday 8am - 5pm

Tuesday, Thursday and Friday 8am - 4pm

Attention!

We have seen a significant increase in mouth and head injuries this past spring.

**Please, wear your protective gear such as mouth-guards and helmets to help prevent accidents.*

**Call the office IMMEDIATELY in the case of mouth trauma; sometimes repair and success of healing is time sensitive; it is often very important that you are seen quickly.*

**If there is any loss of consciousness, vomiting, marked change of behavior or disturbance to facial bones- immediately seek Emergency Room care. These could be symptoms of head trauma, which can be serious and must be addressed immediately.*

Happy Father's Day!

Happy Father's Day to all our wonderful Dad's. We hope you have a special day of recognition for all you do!

Coming Soon!

New York

We are very excited to announce that our New York Room will be opening at the end of June. The additional space increases our appointment availability and allows for more appointment slots for you! Be sure to stop by and check out our newest addition during your summer dental check-ups!
